Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the lines and numerical designations are not of a consistent height and thickness. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Inventorship

In view of the papers filed 7-20-04, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by adding James R. Johnson to the current patent application.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 7-20-05, 7-26-05, and 9-2-05 have been considered by the examiner.
